AISEVAK.IN · FREE GUIDE

Print Job Costing Model

Printing & Packaging

Document type: Financial model / analysis · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Build a complete cost sheet for a print or packaging job — material, prepress, printing, finishing, wastage, overhead and margin — broken down line by line to a total and per-unit cost, so pricing is grounded. Enter the job and cost inputs below.

Purpose of this tool & output

Full cost sheet for any print job

How the output is used

Use it as a full cost sheet for any print job — a job costing model across paper, plates, press, finishing and overhead.

Who should vet it

Your CA or finance lead, to confirm the cost build-up and machine rates against your actual books.

Important cautions

AI-generated cost sheet; plug in your actual rates before quoting.
