

Conversion-Period Planner

AgriTech & FoodTech

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a year-wise organic conversion plan (typically 2-3 years under NPOP) — actions per year to stop prohibited inputs, build soil and keep records, plus in-conversion marketing options. Use it to manage the transition. To choose the certification route, use the Organic Certification Guide.

Purpose of this tool & output

Plan the transition from conventional to organic

How the output is used

Use the planner to manage the transition from conventional to organic through the conversion period.

Important cautions

AI-generated plan; confirm exact period with your certification body.
