

Farm Advisory Report

AgriTech & FoodTech

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Diagnoses a described crop problem and gives IPM-based actions and India-approved treatment recommendations with dosage and safety intervals. Use it for a specific crop issue. To just identify a pest/disease, use the Pest / Disease Identifier; for a nutrient schedule, use the Fertiliser / Nutrient Plan.

Purpose of this tool & output

Describe your crop and problem and we provide AI-powered agronomic guidance

How the output is used

Use the agronomic guidance to diagnose and act on a crop problem, then confirm with a local expert.

Important cautions

AI-generated advisory. Consult your local Krishi Vigyan Kendra (KVK) or agricultural officer before applying any pesticide. Follow label instructions.

Companion documents

- Pest / Disease Identifier
- Fertiliser / Nutrient Plan
- Crop Selection Advisor
- Irrigation Schedule Planner
- Soil-Health Recommendation

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
