

Nutrition Panel Calculator

AgriTech & FoodTech

Document type: Financial model / analysis · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a print-ready nutrition information panel (per 100g and per serving) for a food product from your recipe, to FSSAI labelling norms. Use it as a starting panel for your label. For legal labels, confirm with a lab test; for the full label, use the FSSAI Food Label Generator.

Purpose of this tool & output

Build a per-100g nutrition information panel

How the output is used

Use the calculator to build a per-100g nutrition information panel for a food label.

Who should vet it

A food-labelling consultant or lab, to confirm the values and format.

Important cautions

AI-generated estimate from typical values; for legal labels, get lab analysis.
