

# Organic Certification Guide

AgriTech & FoodTech

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Recommends the right organic certification route (NPOP for export/premium, PGS-India for domestic) with a comparison, conversion-period guidance, documentation and government support schemes. Use it to plan certification. For the transition plan, use the Conversion-Period Planner; for the records, use the NPOP Documentation Builder.

## Purpose of this tool & output

Describe your farm and we outline the NPOP or PGS-India organic certification pathway

## How the output is used

Use the guide to choose and follow the NPOP or PGS-India organic certification pathway for your farm.

## Important cautions

AI-generated pathway. Connect with your state's Department of Agriculture for PKVY scheme benefits.

## Companion documents

- NPOP Documentation Builder
- PGS-India Group Guide
- Conversion-Period Planner
- Organic Input Compliance

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
