

Organic Input Compliance

AgriTech & FoodTech

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Assesses whether your farm inputs are permitted, restricted or prohibited under NPOP organic standards and suggests compliant substitutes. Use it before buying inputs for a certified/converting farm. For the records to keep, use the NPOP Documentation Builder.

Purpose of this tool & output

Check which inputs are permitted under organic standards

How the output is used

Use the guide to check which inputs are permitted under organic standards before you use them.

Important cautions

AI-generated assessment; confirm against the current NPOP permitted-inputs list and your CB.
