

Phytosanitary Certificate Guide

AgriTech & FoodTech

Document type: Licence / statutory filing · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Guides obtaining a Phytosanitary Certificate for a plant-product export via the Plant Quarantine authority/PHYTO portal — application, inspection/treatment, documents and destination conditions. Use it for exports of fresh produce, grains or plant material.

Purpose of this tool & output

Get the plant-health certificate for export

How the output is used

Use the guide to get the phytosanitary (plant-health) certificate the importing country requires for a plant/agri export.

Who receives it

The Plant Quarantine authority (PQIS), Ministry of Agriculture.

How to submit / file it

Apply on the PQIS portal with the consignment details; inspection/treatment precedes the certificate.

Fees & charges

An inspection/certificate fee per Plant Quarantine rules.

Who should vet it

An export/plant-quarantine consultant, for the destination requirement and treatment.

Important cautions

AI-generated guide; confirm destination requirements and PQ procedures.
