

Company Dealership Acquisition Guide

Agri-Inputs & Farm Supply

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a plan to secure dealerships/distributorships from input companies — which to approach, eligibility, application, terms to negotiate and how to win allocation. Use it to line up brands and stock. For the dealership contract use the Dealership Agreement (AI12).

Purpose of this tool & output

Get seed/fertilizer/agrochem company dealerships

How the output is used

Use it to approach seed, fertilizer and agrochem companies for a dealership — what they look for, the documents to keep ready and how to negotiate terms.

Important cautions

Company dealership terms (margin, security deposit, targets, stock returns) vary widely and shape your economics — read the appointment letter carefully. A reputable anchor brand helps, but do not over-commit deposits or targets. Have the dealership agreement reviewed.
