Consignment Stock Agreement

Agri-Inputs & Farm Supply

Document type: Contract / agreement · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a consignment agreement with discrete terms — goods, ownership, commission, settlement, unsold returns and risk — for holding a company or distributor stock on consignment rather than outright purchase. Use it to formalise consignment supply. Fill each term separately.

Purpose of this tool & output

Hold company stock on consignment

How the output is used

Use the draft to hold company stock on consignment on clear terms — ownership, settlement, returns and liability for damage or expiry — reviewed by a lawyer before signing.

Who receives it

The agreement is between the company/consignor and you as the consignee; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act; the value and settlement terms decide the applicable duty.

Who should vet it

A lawyer, to fix the ownership, expiry-liability and settlement terms so unsold or expired stock is not silently your loss.

Important cautions

Template for guidance, not legal advice. In consignment, title stays with the consignor until sale and expiry/return risk usually sits with them — ensure the agreement states this and the compliance (MRP/DBT) for regulated inputs. Have a lawyer review before signing.
