

DAESI / Dealer Certification Guide

Agri-Inputs & Farm Supply

Document type: Licence / statutory filing · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains the dealer qualification/certification landscape — DAESI, agri degrees/diplomas, and what each licence needs — and maps your path to becoming a qualified, compliant dealer. Use it to fix a qualification gap. For the pesticide licence itself use the Pesticide Dealer Licence Guide.

Purpose of this tool & output

Meet the input-dealer qualification rule

How the output is used

Use it to meet the input-dealer qualification rule — enrol in and complete the DAESI (or equivalent) certificate that many states require for a pesticide licence.

Who receives it

The DAESI course is run by MANAGE-accredited nodal training institutes (agriculture universities / KVKs); the certificate is recognised by the State Agriculture Department for licensing.

How to submit / file it

Enrol at the notified nodal institute for the one-year DAESI course (or the qualification your state accepts), attend the classes/field sessions and clear the assessment to receive the certificate.

Fees & charges

A course fee set by MANAGE and the nodal institute for the DAESI programme; varies by centre.

Who should vet it

The MANAGE-accredited nodal institute that runs the course, and the State Agriculture Department that accepts the certificate for the licence.

Important cautions

The qualification requirement (DAESI or an agriculture degree/diploma) applies most strictly to pesticide dealer licences and varies by state. Confirm the exact current rule and approved DAESI providers with your district agriculture officer/MANAGE before enrolling.
