

Company Dealership Agreement Review

Agri-Inputs & Farm Supply

Document type: Contract / agreement · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Reviews and explains a company/distributor dealership agreement offered to a dealer — margin/scheme, targets, security deposit, credit, territory, stock returns and termination — flagging risky terms to negotiate. Use it before signing an appointment. Paste the agreement and add your concerns.

Purpose of this tool & output

Understand a company dealership contract

How the output is used

Use the review to understand a company dealership contract before you sign — targets, credit, returns, territory and termination — so no clause traps you later.

Who receives it

The agreement is between the input company/principal and you as the dealer; each side keeps a signed copy.

Fees & charges

Stamp duty on the agreement as per your state stamp act; a security deposit is often payable to the company separately.

Who should vet it

A lawyer, to check the target, credit, return, territory-exclusivity and termination clauses before you sign.

Important cautions

Guidance, not legal advice. Watch security-deposit refund conditions, target consequences and the unsold/expired-stock return policy especially. Have a lawyer review before signing a dealership agreement and do not over-commit deposits or targets beyond your catchment.
