

Insecticides Act Compliance Guide

Agri-Inputs & Farm Supply

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces an ongoing compliance guide for a pesticide dealer under the Insecticides Act — qualified-person, registered-and-labelled products, records, storage, no banned/expired sales and inspection handling. Use it to run pesticide sales compliantly. For getting the licence use the Pesticide Dealer Licence Guide.

Purpose of this tool & output

Sell pesticides legally and safely

How the output is used

Use it to run pesticide sales within the Insecticides Act every day — licence scope, records, only-registered products and correct label-based advice.

Important cautions

Selling banned, unregistered, expired or misbranded pesticides, or without a qualified person/records, are serious offences under the Insecticides Act. Sell only CIB-registered products with valid labels for the registered use, keep prescribed records, and advise safe use. Confirm the current registered/banned lists.
