

Supplier & Distributor Selection

Agri-Inputs & Farm Supply

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a supplier/distributor evaluation for an input dealer — comparing companies and distributors on margin, credit, supply reliability, genuineness, returns and support, with a sourcing recommendation. Use it to build a dependable supply base. For a company dealership use the Company Dealership Acquisition Guide.

Purpose of this tool & output

Choose reliable input suppliers and distributors

How the output is used

Use it to pick reliable suppliers and distributors — weigh genuineness, credit terms, supply reliability and margin before you tie up.

Important cautions

Source only from genuine, authorised companies/distributors — spurious or grey-market stock exposes you to serious quality liability. Secure peak-season supply and a fair stock-return policy; do not over-rely on one supplier. Verify source certificates for every principal.
