

Dealership Technology & Software Advisor

Agri-Inputs & Farm Supply

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Recommends technology for an input dealership — integrated billing/inventory/GST software, credit-ledger tracking, PoS integration and farmer-engagement apps — matched to scale and payback. Use it to modernise operations. For records compliance use the Billing & Records System tool.

Purpose of this tool & output

Adopt billing, inventory and farmer-app tech

How the output is used

Use it to adopt billing, inventory and farmer-app technology the right way — what to computerise first and how to roll it out without disrupting the shop.

Important cautions

Start with integrated billing-inventory-credit software — accurate stock, expiry and credit-ageing visibility prevents the losses that plague this trade. Only adopt tech staff will actually use and maintain. Costs are indicative; ensure fertilizer PoS/iFMS compliance is preserved.
