

Parts Margin Analyzer

Automotive & Mobility

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

See margin across your parts categories — a per-category table of sales, margin percent and a grow, hold or reprice verdict, insights on high versus low margin categories, and actions (mix, pricing, sourcing). Paste your category data and the tool does the comparison. Fill in your details below.

Purpose of this tool & output

Optimise margin across parts categories

How the output is used

Use the analyzer to optimise margin across parts categories and to spot underpriced lines.

Who should vet it

A parts/finance manager, to confirm the margin analysis.

Important cautions

AI-generated analysis; based on the data you provide.
