

Agriculture Drone Spraying Business Guide

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a guide to an agriculture drone spraying (kisan drone) service — drones, certification, agro-chemical rules, operations, pricing and subsidies. Use it to build a farm drone-spraying business.

Purpose of this tool & output

Run a kisan-drone spraying service

How the output is used

Use it to run a kisan-drone spraying service — the drone, pilot, agrochemical rules and pricing to offer farmers mechanised spraying.

Important cautions

Agri-drone spraying has specific DGCA guidelines and only approved formulations and application SOPs may be used; drift and safety and residue rules apply. Confirm the current agri-drone SOPs and approved chemicals and subsidy schemes before operating.
