

DGCA Audit & Surveillance Preparation

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Helps prepare for DGCA and BCAS audits, surveillance and spot checks — documentation, self-audit, common findings and corrective action — to pass audits and hold approvals. Use it to be audit-ready.

Purpose of this tool & output

Prepare for DGCA audits and inspections

How the output is used

Use it to prepare for DGCA audits and surveillance — the documents, records and readiness checks to pass a regulatory audit cleanly.

Important cautions

DGCA and BCAS audits are rigorous and findings can suspend approvals; requirements change with the CARs. Maintain continuous compliance, not just pre-audit fixes, and confirm the current requirements.

Companion documents
