

Drone Business Setup Guide

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup plan for a drone business — services, training or manufacturing — covering the Drone Rules, Digital Sky, registration, pilot certification and equipment. Use it as the playbook to enter the drone sector.

Purpose of this tool & output

Start a drone / UAS business

How the output is used

Use it to start a drone or UAS business — the segment, drones, pilot and approvals to fly commercially under the Drone Rules.

Important cautions

Drone rules, categories, type-certification and airspace zones evolve rapidly and are enforced; flying without registration, certification or permissions is an offence. Confirm the current Drone Rules and Digital Sky requirements before operating.
