

Drone Operations SOP

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces an operations SOP for drone flights — pre-flight and airspace and permission checks, flight, safety and emergency, and records — for compliant, safe operations. Use it to run drone operations to standard.

Purpose of this tool & output

Fly drones safely and legally

How the output is used

Use it as the SOP to fly drones safely and legally — pre-flight checks, zone permissions, flight discipline and logging on every mission.

Important cautions

Drone operations must comply with the current Drone Rules, airspace zones and permissions and category limits; violations are penalised and near-airport and sensitive-area flying is restricted. Always check airspace and permissions before flying.
