

Drone Services (Survey/Mapping/Inspection) Guide

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a guide to delivering drone survey, mapping, inspection and monitoring services — use cases, equipment and software, operations, deliverables and compliance. Use it to build a drone-services business.

Purpose of this tool & output

Deliver drone survey and inspection services

How the output is used

Use it to deliver drone survey, mapping and inspection services — the workflow, deliverables and permissions each job type needs.

Important cautions

Drone-service value rests on accuracy, permissions and deliverable quality and some sites and data have security and privacy restrictions. Fly only with permissions and confirm any site or data-sensitivity restrictions.
