

Aviation Funding & Financing Plan

Aviation & Air Services

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a funding plan for an aviation venture — equity, debt, aircraft financing and leasing, and any scheme — with a means-of-finance structure and how to raise it. Use it to arrange capital and aircraft finance.

Purpose of this tool & output

Fund the venture and finance aircraft

How the output is used

Use it to fund the venture and finance aircraft — the equity, debt, lease and grant mix and how each aircraft is best financed.

Who should vet it

A finance adviser or your banker, to confirm the funding structure and aircraft-finance terms before you commit.

Important cautions

Aviation funding and aircraft financing are specialised and forex-exposed and lease terms are complex; scheme applicability varies. Confirm current options and terms with aviation-finance specialists and lessors before committing.
