

Ground Handling Business Setup Guide

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup plan for a ground handling agency — the concession or approval, equipment, manpower, safety and airline contracts — for passenger, ramp and cargo handling. Use it to enter ground handling.

Purpose of this tool & output

Set up a ground handling business

How the output is used

Use it to set up a ground handling business — the equipment, manpower, airport access and approvals to service aircraft on the ramp.

Important cautions

Ground handling needs airport concessions or approvals and BCAS security and is capital- and safety-intensive with airport-specific rules. Confirm the concession and approval requirements with the airport operator, AAI, DGCA and BCAS before committing.
