

Helicopter Services Setup & Ops Guide

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup-and-operations guide for helicopter services — corporate, pilgrimage, tourism, offshore or EMS — covering permits, helipads, ops and safety specifics. Use it to build a helicopter operation.

Purpose of this tool & output

Set up and run helicopter services

How the output is used

Use it to set up and run helicopter services — charter, pilgrimage, offshore or utility — with the site, safety and ops specifics helicopters need.

Important cautions

Helicopter operations, especially in hills and bad weather, carry elevated safety risk and strict performance and weather limits; do not push weather or load limits. Confirm requirements with DGCA and prioritise safety over schedule.
