

Line Maintenance Setup & Ops Guide

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a plan to set up and run line maintenance at a station — approvals, staff, tooling, transit and daily checks, and turnaround support — for operators or third parties. Use it to establish line maintenance.

Purpose of this tool & output

Set up line maintenance at a station

How the output is used

Use it to set up and run line maintenance at a station — transit and daily checks, defect handling and certification within scope.

Important cautions

Line maintenance is CAR-145-scoped and safety-critical and needs authorised certifying staff and approved procedures. Confirm the approval scope and staffing requirements with DGCA and follow your exposition.
