

Aviation Security Programme Builder

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Helps build and maintain an operator or agency aviation security programme under BCAS — threat and access control, screening, training and contingency — for approval and compliance. Use it to structure your security programme.

Purpose of this tool & output

Build and maintain a security programme

How the output is used

Use it to build and maintain an aviation security programme — the measures, responsibilities and training that keep the operation BCAS-compliant.

Important cautions

Aviation-security programmes are sensitive, BCAS-approved and strictly enforced and change with the threat picture; non-compliance halts operations. Confirm the current requirements with BCAS and implement through certified avsec professionals.
