

Pilot Training Curriculum Designer

Aviation & Air Services

Document type: Plan / SOP / strategy / guide · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Helps design a pilot-training curriculum and course structure — ground and flight syllabus, hours, phases, checks and records — aligned to DGCA and licence requirements. Use it to structure training courses.

Purpose of this tool & output

Design a compliant training syllabus

How the output is used

Use it to design a compliant pilot-training syllabus — ground and flight training mapped to the CAR and licence requirements.

Important cautions

Curriculum and minimum-hour and licensing requirements are set by DGCA and the applicable CARs and change; training must meet them exactly. Confirm the current requirements with DGCA and your approved training manual.
