

Compliance Calendar

Building Materials & Hardware

Document type: Plan / SOP / strategy / guide · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a compliance calendar for a building-materials business — GST returns, TDS, PF/ESI/PT, trade-licence and any pollution-consent renewals, and weighbridge verification — with frequencies and reminders, so nothing lapses. Use it to stay on top of compliance. For what applies use the Trade Licensing & Registrations tool.

Purpose of this tool & output

Every filing and renewal on one calendar

How the output is used

Use it to put every filing and renewal on one calendar — GST returns, licences and statutory dates so nothing lapses.

Important cautions

Frequencies and due dates vary by state and change; confirm with your CA. Do not let pollution consent or weighbridge verification lapse — both can halt operations.
