This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Structures a bid for government/institutional building-material supply tenders — eligibility and EMD, technical (brands/BIS/quality) and commercial bid, delivery and payment terms, and compliance — so your tender submission is complete and competitive. Use it for tender supply. For a private BOQ use the BOQ-Based Project Quotation tool.

Purpose of this tool & output

Bid for institutional material-supply tenders

How the output is used

Use it to bid for institutional material-supply tenders — eligibility, rate build-up and documentation for a government or institutional supply bid.

Important cautions

Price for government payment delays and retention; winning L1 on thin margins that then get delayed can be worse than not bidding. Follow the tender format exactly.
