

GHS Label Guide

Chemicals & Process Industry

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a GHS-compliant label design for a chemical product — pictograms, signal word, hazard and precautionary statements, product and supplier details — matched to the product hazards. Describe the product below.

Purpose of this tool & output

Build a compliant hazard label

How the output is used

Use it to build a compliant GHS hazard label — the pictograms, signal word, hazard and precautionary statements a product must carry.

Important cautions

AI-generated guide; confirm classification and statements against the authoritative GHS and your SDS.
