

Technology / Know-how Licence Agreement

Chemicals & Process Industry

Document type: Contract / agreement · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a technology or know-how licence agreement for a chemical process/formulation — scope of licence, technical transfer, royalty/fees, IP and confidentiality — for licensing a process in or out. Fill in the terms below.

Purpose of this tool & output

License a process or formulation

How the output is used

Use the draft to license a process or formulation — scope, royalty, IP, confidentiality and liability — then have a lawyer review it.

Who receives it

The agreement is between the technology owner (licensor) and the licensee; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act; withholding tax and GST apply to royalties as per law.

Who should vet it

An IP/commercial lawyer, to check the royalty, IP-ownership, confidentiality and liability clauses before signing.

Important cautions

AI-generated draft; technology licences are complex - have an IP/commercial lawyer review before signing.

Companion documents

- Chemical Supply Agreement
- Toll / Contract Manufacturing Agreement
- Chemical Distribution Agreement
- Raw Material Supply Agreement
- Chemical Business NDA
- Sales Agency / Indent Agreement

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
