This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a toll/contract-manufacturing agreement — one party makes a product for another using agreed process and specs — covering materials, IP, quality, safety and pricing. Fill in the terms below.

Purpose of this tool & output

Get a product made on job-work terms

How the output is used

Use the draft to get a product made on job-work terms — scope, quality, IP, liability and confidentiality — then have a lawyer review it.

Who receives it

The agreement is between the principal and the toll/contract manufacturer; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act; GST and job-work provisions are handled in invoicing.

Who should vet it

A lawyer, to check the IP, quality-responsibility, liability and confidentiality clauses before signing.

Important cautions

AI-generated draft; have a lawyer review before signing.
