

# Financial Bid & Pricing Helper

Construction & Infrastructure

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Build a financial bid that wins without losing money — a pricing build-up (direct cost, overhead, risk, margin), a loading strategy within rules, escalation and tax treatment, and a viability check against unviable low bids. Fill in your details below.

## Purpose of this tool & output

Price to win without losing money

## How the output is used

Use the pricing helper to bid a number that wins yet still covers cost, overhead and a real margin.

## Who should vet it

A quantity surveyor or estimator, to confirm the priced BOQ covers cost, overhead and risk.

## Important cautions

AI-generated helper; use your real cost base and tender conditions.
