This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Structure a construction JV for a project or tender — an outline covering purpose and scope, structure (lead partner, shares, roles), contribution, management, profit and loss sharing, liability and exit and dispute. Needs legal and tax advice. Fill in your details below.

Purpose of this tool & output

Structure a JV for a project or bid

How the output is used

Use the draft to structure a project or bid JV — shares, roles, contribution and profit/loss — before you commit jointly.

Who receives it

The JV partners — all sign; a copy each (and the tendering authority if a JV bid).

Fees & charges

Stamp duty per your state; registration may be needed depending on the JV structure.

Who should vet it

A corporate/construction lawyer and a CA, for the liability, tax and exit structure.

Important cautions

AI-generated outline; JV structuring needs legal and tax advice.
