

Method Statement Writer

Construction & Infrastructure

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a method statement for a construction activity — a step-by-step sequence, resources (manpower, machinery, materials), quality checks, safety measures with hazards and controls, and relevant IS code references. Fill in your details below.

Purpose of this tool & output

Safe, correct method statements for activities

How the output is used

Use the method statement to set out the safe, correct way to do an activity and to get consultant approval before starting.

Important cautions

AI-generated statement; validate with your engineer and safety officer.

Companion documents

- Site Execution Plan
- Site Operations SOP
- Daily Progress Report (DPR)
- Site Layout & Logistics Plan
- Work Quality Checklist
- Snag List & Rectification Tracker

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
