

Nonconformance Report (NCR)

Construction & Infrastructure

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Document and close a quality defect — an NCR with description, location, standard violated, disposition (accept, rework, repair, reject), root cause, and corrective and preventive action. Disposition needs engineer sign-off. Fill in your details below.

Purpose of this tool & output

Document and close quality defects

How the output is used

Use the NCR to document a quality defect, its cause and the corrective/preventive action, and to close it with sign-off.

Important cautions

AI-generated report; disposition needs engineer sign-off.
