This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Prepare your periodic RERA update — what to report (construction progress by component, bookings, finances, timeline status, changes), the documents and certifications needed, and tips for consistency and accuracy. Fill in your details below.

Purpose of this tool & output

Prepare your periodic RERA updates

How the output is used

Use the helper to prepare the periodic RERA update — progress, approvals and financial status — that your state RERA requires.

Who receives it

The State RERA authority (through the project page on the RERA portal).

How to submit / file it

Update the RERA portal each prescribed period with construction progress, approvals status and the required certificates.

Fees & charges

No separate fee for the update in most states; certification costs apply.

Who should vet it

A RERA consultant, with CA/engineer/architect certificates as the portal requires.

Important cautions

AI-generated helper; follow your state RERA portal format and certification requirements.
