

Vendor Evaluation & Selection

Construction & Infrastructure

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Choose reliable vendors objectively — weighted evaluation criteria (quality, price, delivery, capacity, reliability, compliance), a vendor-versus-criteria comparison template and recommendation logic. Fill in your details below.

Purpose of this tool & output

Choose reliable material and work vendors

How the output is used

Use the scoring to choose reliable material and work vendors on quality, capacity, price and track record.

Who should vet it

A procurement/commercial manager, to confirm the criteria weighting and vendor claims.

Important cautions

AI-generated framework; base final choice on verified data.
