

Utility Connection Guide

Construction & Infrastructure

Document type: Licence / statutory filing · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get your utility connections — per utility (water, sewerage, electricity) the authority, documents and process, plus the prerequisites (sanctioned plan; OC for permanent connections). Fill in your details below.

Purpose of this tool & output

Get water, sewer and power connections

How the output is used

Use the guide to get water, sewer and power connections for the project with the right documents and sequence.

Who receives it

The water/sewerage board and the electricity distribution company (DISCOM).

How to submit / file it

Apply to each utility with the sanctioned plan, ownership and (often) the occupancy/completion status; inspection and load sanction follow for power.

Fees & charges

Connection, security deposit and development charges per utility and load.

Who should vet it

A licensed electrical contractor for the power connection and load documentation.

Important cautions

AI-generated guide; processes vary by utility and city, confirm with providers.
