

Token Investor Relations Report

Crypto & Web3

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a professional token-holder / investor-relations update — executive summary, protocol metrics, development and treasury updates, roadmap and community sections, with a tone check for over-bullish language. Use this for a periodic holder update; for a shorter community post use the Community Update Drafter.

Purpose of this tool & output

Describe your project metrics and we draft a token holder update / IR report

How the output is used

Use the drafted IR report to give token holders a clear, honest update on metrics, progress and treasury.

Important cautions

AI-generated IR report template. Review for accuracy before publishing to token holders.

Companion documents
