

Multi-Sig Recovery Plan

Crypto & Web3

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Designs a resilient multisig recovery plan — signer roles, threshold, key backups, a signer-loss/rotation procedure and geographic distribution — with a testing note. Use this for multisig resilience; validate it with a security expert and test on small amounts first.

Purpose of this tool & output

Design resilient multisig recovery

How the output is used

Use the plan to design resilient multisig recovery so no single lost key locks the funds forever.

Important cautions

AI-generated design; validate with a security expert; test on testnet/small amounts first.
