

Retroactive Funding Application

Crypto & Web3

Document type: Letter / notice · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a retroactive public-goods funding (RetroPGF-style) application — project summary, provable impact evidence, public-good value, contribution period and funding rationale. Use this for retro funding where impact is already delivered; for forward-looking grants use the Ecosystem Grant Proposal.

Purpose of this tool & output

Apply for retroactive public-goods funding

How the output is used

Use the drafted application to apply for retroactive public-goods funding for work you have already delivered.

Who receives it

The retroactive public-goods funding program/round.

How to submit / file it

Submit via the round application process with the evidence of impact and contribution.

Who should vet it

A grants advisor familiar with the retro-funding round criteria.

Important cautions

AI-generated draft; align to the specific RetroPGF round criteria.
