

Key / Wallet Inheritance Plan

Crypto & Web3

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Designs a secure crypto inheritance plan — an asset inventory, a safe access-handover method (sealed instructions, Shamir/multisig, password-manager legacy) and how to reference assets in a will without exposing keys. Use this for the handover mechanics; for the overall plan use Digital Asset Estate Planning. Never store plaintext keys in a will.

Purpose of this tool & output

Plan secure handover of crypto access

How the output is used

Use the plan to hand over crypto access securely to heirs — keys, seed phrases and instructions — without exposing them now.

Important cautions

AI-generated plan; consult an estate lawyer; secure keys carefully; test the recovery method.
