

White Paper Review & Editing

Crypto & Web3

Document type: Financial model / analysis · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Reviews a crypto white paper section by section for clarity, tokenomics logic, technical claims and regulatory red flags, with prioritised edits. Use this to critique an existing draft; to create one from scratch use the White Paper Outline Generator or the Litepaper Drafter.

Purpose of this tool & output

Upload your crypto white paper for structural review, editing suggestions and risk flag analysis

How the output is used

Use the structural review, edit suggestions and risk flags to strengthen a white paper before you publish it.

Who should vet it

A tokenomics/legal advisor, to confirm the claims and risk disclosures are accurate and compliant.

Important cautions

AI-generated review. Have a blockchain lawyer review for securities law compliance before publishing.

Companion documents
