

Dairy / Livestock Business Setup Guide

Dairy, Poultry & Livestock

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup plan for a dairy/poultry/livestock business — model and scale, land/shed, breed/stock selection, registrations, and a launch checklist. Use it to start out. For the full plan use the Farm Business Plan.

Purpose of this tool & output

Start a dairy, poultry or livestock farm in India

How the output is used

Use it as your first roadmap to start a dairy, poultry or livestock farm — the animal, model, licences and setup, then move to the full plan.

Important cautions

Breed/stock choice, feed and animal health make or break livestock farming; larger units need pollution-control consent. Confirm current subsidy schemes (NABARD/DEDS) and licence requirements with the animal husbandry department and a CA.

Companion documents

- Farm Business Plan
- Farm Model & Breed Selector
- Farm Feasibility Study
- Farm Organisation & Labour Planner
- Subsidy & Scheme Advisor
- Integrated Farming Model Planner
