

Equipment Purchase / Supply Agreement

Dairy, Poultry & Livestock

Document type: Contract / agreement · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts an equipment purchase/supply agreement with discrete terms — equipment, price, delivery/installation, warranty, service and payment. Use it to buy milking machines, bulk coolers or processing equipment safely. Fill each term separately.

Purpose of this tool & output

Buy dairy equipment with warranty terms

How the output is used

Use the draft to buy dairy equipment with warranty terms — specs, price, installation, warranty and service — then have a lawyer review it.

Who receives it

The agreement is between the equipment supplier and you as the buyer; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act; GST is handled in invoicing.

Who should vet it

A lawyer, to check the warranty, installation-responsibility and service clauses before signing.

Important cautions

Template for guidance, not legal advice. Nail down warranty, installation and service/spares for dairy equipment (coolers/milking machines fail without support). Have a lawyer review before a large purchase.
