

Milk Supply Agreement

Dairy, Poultry & Livestock

Document type: Contract / agreement · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a milk supply agreement between a producer/collector and a buyer (dairy/cooperative/processor) with discrete terms — quantity, fat/SNF pricing, quality, payment cycle, duration and penalties. Use it to formalise a milk sale relationship. Fill each term separately.

Purpose of this tool & output

Draft a farmer-to-dairy milk supply contract

How the output is used

Use the draft for a farmer-to-dairy milk supply contract — quantity, quality, price, payment and testing — then have a lawyer review it.

Who receives it

The agreement is between the farmer/producer and the dairy or buyer; each keeps a signed copy.

Fees & charges

Usually executed on stamp paper per your state; GST is generally not applicable to raw milk supply.

Who should vet it

A lawyer, to check the quality-rejection, price and payment-security terms before signing.

Important cautions

Template for guidance, not legal advice. Fat/SNF pricing, rejection and payment terms should reflect actual practice. Have a lawyer review before signing, and comply with FSSAI quality norms.

Companion documents

- Cattle / Livestock Purchase Agreement
- Farm Land Lease Agreement
- Farm Worker Employment Agreement
- Poultry Integration / Contract-Farming Agreement
- Dairy Product Distributor Agreement
- Veterinary Service Agreement

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and

processes vary by state and change over time — confirm with your state authority.
