

Veterinary Service Agreement

Dairy, Poultry & Livestock

Document type: Contract / agreement · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a veterinary retainer/service agreement with discrete terms — scope, visit schedule, emergency response, fees and records. Use it to tie up regular vet support for a herd or poultry flock. For a vet tie-up plan use the Vet Tie-Up tool (D3).

Purpose of this tool & output

Retain a vet for herd/flock health

How the output is used

Use the draft to retain a vet for herd or flock health — scope, visit schedule, emergency cover and fees — then have a lawyer review it.

Who receives it

The agreement is between the farm and the veterinarian or veterinary service; each keeps a signed copy.

Fees & charges

Usually executed on stamp paper per your state; GST applies to the professional fee where applicable.

Who should vet it

A lawyer, to check the scope, emergency-cover and liability terms before signing.

Important cautions

Template for guidance, not legal advice. Define emergency response and record-keeping clearly. Have both parties agree fees and scope in writing; a licensed veterinarian must handle treatment and prescriptions.

Companion documents

- Milk Supply Agreement
- Cattle / Livestock Purchase Agreement
- Farm Land Lease Agreement
- Farm Worker Employment Agreement
- Poultry Integration / Contract-Farming Agreement
- Dairy Product Distributor Agreement

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and

processes vary by state and change over time — confirm with your state authority.
