

ABDM / ABHA Integration Guide

Diagnostics, Labs & Imaging

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains connecting a diagnostic centre to the Ayushman Bharat Digital Mission — ABHA linkage, health facility registry, sharing reports to health records and consent. Use it to go ABDM-ready. For data privacy use the Patient Consent & Data Privacy Policy.

Purpose of this tool & output

Connect to India digital health (ABDM)

How the output is used

Use it to connect to India digital health (ABDM) — the ABHA linkage and interoperability steps to join the national health stack.

Important cautions

ABDM participation is largely voluntary and evolving — requirements and APIs change. Sharing health records requires patient consent through the ABDM framework and DPDP-compliant handling. Use an ABDM-compliant LIS or integrator and confirm current specifications.
