

Biomedical Waste Compliance Plan

Diagnostics, Labs & Imaging

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an ongoing biomedical-waste compliance plan — segregation, storage, handover, records, returns, training and audits — under the BMW Rules 2016. Use it to run waste compliance daily. For the initial authorisation use the Biomedical Waste Authorization Guide.

Purpose of this tool & output

Run BMW compliance day to day

How the output is used

Use it to run BMW compliance day to day — colour-coded segregation, records and the CBWTF handover done correctly every day.

Important cautions

BMW compliance is continuous — correct segregation, records, CBWTF handover and the annual return are all mandatory and inspected. Non-compliance risks penalties and closure. Confirm current requirements with your SPCB and CBWTF operator.

Companion documents
