

Health / Screening Camp Plan

Diagnostics, Labs & Imaging

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Plans a health or screening camp — target, tests, logistics, staffing, consent, on-site flow, follow-up and economics. Use it to run camps that build volume and goodwill. For corporate camps use the Corporate Wellness Tie-up Program.

Purpose of this tool & output

Plan and run a diagnostic camp

How the output is used

Use it to plan and run a diagnostic camp — the logistics, staffing and follow-up for a screening or health camp.

Important cautions

Camps build goodwill and leads but must maintain sample quality and honest counselling — a screening result is not a diagnosis and abnormal findings need proper follow-up. Get necessary permissions and consent and ensure any consultations are by a qualified professional.
